

CARTONPLAST PLASTIC TRAY

OPTIMIZED FOR ALL LIGHTWEIGHT PLASTIC CONTAINERS

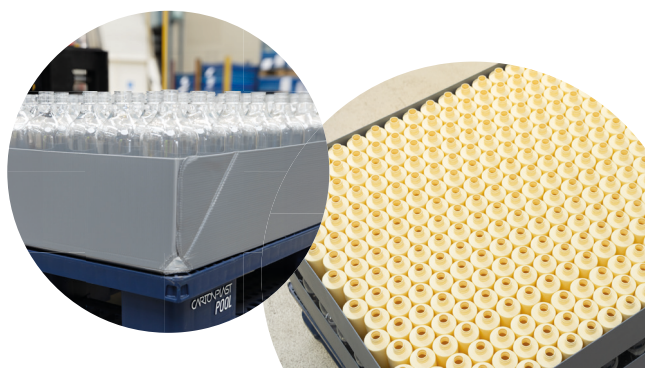

- Designed to safely hold and transport a wide range of plastic packaging — ensuring reliable protection and easy handling.

INDUSTRY STANDARD DIMENSIONS

- Ensures compatibility with most pallet systems and automated handling lines.
- Streamlining logistics and storage efficiency.
- Lightweight yet exceptionally stable.
- Combines low weight for easy manual handling with excellent rigidity for secure stacking — reducing labor effort and preventing product damage.

HIGH-QUALITY CORRUGATED POLYPROPYLENE WITH SEALED EDGES. BUILT FROM DURABLE CORRUGATED PP SHEETS WITH SEALED EDGES THAT:

- prevent dust, moisture, and bacteria infiltration
- extending container lifespan and maintaining hygiene standards.

RETHINK YOUR IMPACT.
POOLING SOLUTIONS THAT REDEFINE
TRANSPORT SUSTAINABILITY!

Our plastic trays have many advantages over cardboard trays, making them a must-have for any supply chain business. They are safe to handle, cleanable, dimensionally stable and environmentally friendly as well.
